

Elikem Gbeddy, MD

Radiologist

Hope Mills

North Carolina

Dr. Gbeddy completed medical school at Jefferson Medical College in Philadelphia, PA, and then a year of internship at Bryn Mawr Hospital in Pennsylvania. Subsequent to pursuing a medical degree, he worked as a research chemist at Merck and Co Inc where he gained valuable experience in the FDA regulatory environment.

Dr. Gbeddy went on to complete his radiology residency at Monmouth Medical Center in New Jersey and a body fellowship at Johns Hopkins Hospital in Baltimore, MD. He currently works at Veterans Affairs Medical Center in Fayetteville, NC with over 10 years of professional career experience in both diagnostic and interventional radiology.

Dr. Gbeddy has a passion to volunteer and serve in underserved and poor communities and bring educational and medical services to people in Ghana and Africa as a whole.

Mrs. Linda Broz

Retiree

Auburn, Alabama

Mrs. Broz received a degree in Interior Design and worked in the retail field for 10 years. She was offered an opportunity to work for a small start-up company that manufactured parts for IT storage systems. Linda worked there for 16 years learning about all the disciplines required to run a company. Her skills in administration, accounting, and human resources allowed her to work in various industries, including staffing and senior care.

Mrs. Broz was born and raised in Chicago, Illinois. She and her husband will celebrate their 43rd wedding anniversary in September of this year, 2022. Mrs. Broz and her husband happily retired to Alabama in 2013. They were originally attracted to Alabama because of the weather and Lake Martin. They discovered Osher Lifelong Learning Institute (OLLI) at Auburn University and met amazing people and made friends. They moved to Auburn in 2016 and so far, "it just keeps getting better and better for the couple".

Mrs. Broz is passionate about volunteerism and giving back to her community.
