

TALITA ANOKYE
MY DREAMS AND PASSION.

I am Talita, a graduate with a degree in Biological Sciences from the University of Energy and Natural Resources, Ghana. Currently, I am undertaking my mandatory service to my country as a teaching assistant in the Department of Biological Science, at the University of Energy and Natural Resources (UENR), Sunyani.

Growing up, I saw and felt what hunger so many times and being sacked from school was like.

In view of this, my passion has always been to care for people and to put smiles on faces. Also,

I want to make my father proud and wipe all his tears. In doing this, my dreams are to:

1. Build hospitals, and clinics for free health care for people in my community.
2. Build supermarkets and eatery places in order to:
 - a. To create employment for citizens.
 - b. To put food on every table at every home in my community.
3. Help needy but brilliant students to climb the educational ladder to its peak like how the JEQ foundation gave me.
