

MUMUNI JENNIFER SIMNYEWUNI

*Bolgatanga Institute of Midwifery (Upper East Region),
Midwifery, 1st year; Tuition and Housing Scholarships Recipient*

My name is Mumuni Jennifer Simyewuni, a girl of 20 years of age. I am a student at Bolgatanga Midwifery Training College. I come from Tamale in the northern part of Ghana precisely Tampe Kukuo along the Kumbungu main road near the Common Formation Centre (CFC). I am currently a student of the above-mentioned school offering midwifery, I am pursuing this course because it has been my dream career since childhood, my family supports my becoming a nurse, and I want to serve my community and the country at large.

I come from a nuclear family which consists of 10 people: my parents, my stepmom, six of my siblings, and me. I am applying for this scholarship because life has not been easy for my parents to pay school fees. All school fees had to be paid before I could get my S.H.S. certificate from Secondary School. For three years we have been sleeping in darkness, affecting our ability to study at night, because we had a debt to pay.

As a student, I should concentrate fully in class, but financial strain sometimes takes my attention. It has always been my hope and prayer to someday get assistance and I think this is what I have been praying and hoping for. If your noble organization could come to my aid. On behalf of my entire family. we hereby appreciate your interest and support to help me complete my education and enter my dream career.

Acknowledgment

JEQ Foundation would like to thank Mr. and Dr. Mrs. Valarie Thomas, our lifelong donors for supporting Jennifer's college education through the JEQ Foundation. Thanks to Mr. and Dr. Thomas's support, Jennifer's dream of becoming a midwife is now attainable.

Thanks for making a difference!
